CARD OF THANKS

Mr. and Mrs. B. D. Lockhart wish to thank their many friends for the lovely floral tributes and many expressions of sympathy in their recent sad bereavement.

KIRKCALDY NEWS

Roy Walker sells trees and shrubs. Ad Mr. and Mrs. W. H. Baldwin returned home on Tuesday after spending a holiday in California.

Mr. Frank Hobbs of Calgary was a visitor at the home of Mrs. H. F. Boose one day last week.

Mr. and Mrs. A. Roebuck motored to Calgary on Thursday.

Seeding is well on its way in the Kirkcaldy district, also the dust.

Mrs. A. Roebuck gave a bridge party on Friday evening. Ladies first prize was won by Mrs. A. J. Maisey; first gent's by Mr. E. Laing.

Consolation prize, lady, Mrs. W. E. Roebuck; gent's consolation, Mr. Russell Robbie. A very enjoyable evening was spent by all.

Master Jimmie Baldwin returned home on Friday after visiting with his aunt, Mrs. O'Sullivan of Lethbridge for the past three weeks.

ST. ALDHELMS CHURCH

St. Aldhelms Church, April 13th—Palm Sunday, Holy Communion 8:30 a.m.; Sunday school 10:00 a.m.; Matins 11 a.m.; Evensong 7:30 p.m.; Eastway school 3 p.m. Good Friday, April 18th at 11 a.m.

STILL WET AND DRY

This week's tabulation of votes on the wet and dry sentiment in U.S. as recorded by the Literary Digest show: for enforcement 553,337; for modification 598,252; for repeal 848,751.

Both wets and dries count the modificationists on their side, the wets claiming these midway voters are not satisfied with the Eighteenth Amendment; the dries claiming that they clearly do not want it repealed.

Te wettest states are those for the most part with the large urban populations. New York, Illinois, Maryland, Massachusetts, Michigan, New Jersey, Pennsylvania, Rhode Island, Wisconsin, Virginia, Florida, are all definitely for repeal. West Virginia, Washington, Vermont, South Carolina, North Dakota, New Hampshire, Mississippi, Maine, Georgia have a slight lead in the dry column, with almost as many being for dampness or repeal. So far, the States still showing a strong dry sentiment are: Texas, Tennessee, Oklahoma, North Carolina, Nebraska, Kansas, Iowa, Arkansas.

However, the final verdict is still in doubt, with many counties yet to hear from.

PAGE MOSQUITOES

Winnipeg is starting an investigation to check the mileage of mosquitoes; to see how fast—and far they can go. It isn't how far or how fast that worries people, so much as the things they do when they make a landing.

REID HILL PLAYERS PRESENT FINE SHOW

A most amusing and highly entertaining comedy entitled "The Bashful Mr. Bobbs," was presented in the Vulcan Theatre on Monday evening by the Reid Hill Dramatic Society, under the direction of Mrs. Cecil Smith. The plot of the play centered around the plight of an extremely bashful man who was continually thrown into the most compromising position with the fair sex through the amorous conduct of his cousin who was anything but bashful.

"Mr. Boyd McKay, as the bashful one, gave a very natural performance while Mr. Harry Pratt, as the amorous one, in a most characteristic way presented the character of a man, who, to quote from the play: "Was not in love with anyone, but just let a woman appear on the scene and I invariably fall in love."

Norman Lockhart as a "raw country product" was extremely funny, and delighted the audience with his characterization of Obadiah Stump who had "as good manners as anyone when he took pains" and who continually excited the risibilities of those present with his naive actions.

Space does not permit a further account of the performance or of the parts taken by the balance of the cast but all were good and the play was a real success. Much credit is due to those who took part in the play and to Mrs. Smith who so ably directed them.

Other members of the cast included: Mrs. Ross Walker, as Katherine Anderson; Mr. Ross Walker as Frederick Henderson; Miss Irene Bowie as Francis Whittaker; Mrs. S. Fintland as Rosalie Otis; Mrs. J. Douglas as Mrs. Wiggins; Miss Pearl Fulton as Jean Graham; Miss Minnie Kirk as Celesta Vanderpool; and Mrs. O. V. Hickman as Julie the French maid.

FINAL LEGION SOCIAL ENJOYABLE AFFAIR

Positively the last of the enjoyable series of bridge and whist tournaments for the season, under the auspices of the Canadian Legion, B.E.S.L., Vulcan branch, took place on Thursday last, and certainly it was not the least successful of the series.

The winners were:

Bridge—Ladies' high, Mrs. Forrester low, Mrs. Irving; gent's high, J. A. Johnston; gent's low, Robert Todd. Whist—Ladies' high, Agnes Spence; ladies' low, Dora Middleton; gent's high, Floyd Atkinson; gent's low, Wm. Bowie.

After cards, dancing was indulged in to the strains of Len Davis' orchestra and this concluded a most delightful evening.

Winners of the grand prizes for the season are also given hereunder:

Bridge—Ladies' High, Mrs. Geo. Munro—Nov. 27, 2498; Dec. 11, 1170; Jan. 9, 1909; Jan. 23, 2345; Feb. 6, 1519; Feb. 20, 2427; Mar. 6, 1695; Mar. 20, 1820—Total 15,383.

Ladies' Low, Mrs. Harry Minnie—Nov. 27, 1288; Dec. 11, 1669; Jan. 9, 1610; Jan. 23, 1420; Feb. 6, 1384; Feb. 20, 1645; Mar. 6, 17; Mar. 20, 1840—Total 12,621.

Gent's High—Nov. 27, 2267; Dec. 11, 1865; Jan. 9, 1535; Jan. 23, 1535; Feb. 6, 1785; Feb. 20, 1477; Mar. 6, 1927; Mar. 20, 1680—Total 14,071.

Gent's Low, Mr. Harry Minnie—Nov. 27, 1308; Dec. 11, 1116; Jan. 9, 879; Jan. 23, 2440; Feb. 6, 1508; Feb. 20, 1250; Mar. 20, 1701—Total 10,202.

Whist—Same Dates
Ladies' High, Mrs. Pratt—178, 194, 166, 195, 169, 176, 206, 170—Total 1,454.

Ladies' Low, Miss R. Johnston—193, 143, 193, 175, 167, 154, 159, 156—Total 1,340.

Gent's High, Mr. Floyd Atkinson—173, 191, 167, 169, 182, 162, 193, 197—Total 1,434.

Gent's Low, Mr. Frank Middleton—160, 148, 175, 152, 200, 173, 182—Total 1,190.

Mr. and Mrs. Geo. McMann were week end visitors at Calgary and Red Deer.

Store to let, will make alterations to suit tenant, in Rochon Building, Main Street, Vulcan.—Ad

Miss Ruth McMillan, of Calgary, was a week-end visitor at the home of Mr. and Mrs. Roy Walker.

In our issue of March 27th we referred to the return of Mr. and Mrs. C. Hoskyn from England. This is, of course, a mistake for which we wish to tender apology.

The E.P. Ranch had on exhibition at the Calgary Handicraft Festival, many of the Canadian made gifts which have been presented to the Prince of Wales by skillful workers throughout Canada. The exhibits included hand woven rugs, wood carving, metals and potteries.

RUSHFELDT—JOHNSON

(Too Late for Last Week)

An announcement has just arrived of the marriage of Mable Olive, daughter of Mr. and Mrs. J. E. Johnson of Churches Ferry, North Dakota, to Wilhelm O. Rushfeldt, formerly of this town, son of Mr. and Mrs. J. A. Rushfeldt, Vulcan, on March 12th. They in the future will reside near Garske, North Dakota.

Miss Mary Bittorf of Calgary and Mrs. Wm. Peters of Kirkcaldy, spent Sunday, March 30, with their father, Mr. Geo. Bittorf of Vulcan, who has been very ill, and confined to his bed for the last two months.

VULCAN TO PLAY BALL COMING SEASON

A well attended meeting took place in the Canadian Legion club rooms on Monday evening to consider the organization of a baseball club for Vulcan during the ensuing season.

W. Recor, a member of the committee of Vulcan Athletic Association, occupied the chair, and Jim Flynn was appointed secretary for the meeting. A committee, to work with the Athletic Association, was appointed as follows: Roy Green, W. Recor, Colin McInnes.

Don Devereaux was appointed secretary, and asked to arrange a meeting of representatives of clubs interested in the formation of a league.

Enthusiasm at Monday's meeting indicates a successful season of ball for Vulcan this year.

CHURCH OF CHRIST NOTES

Communion 10:30, followed by the morning service. The subject will be "The Purpose of This Church." 11:30 Bible school, standard international lesson "The Child and the Kingdom." Christian Endeavor at the usual hour, 8 p.m., song service. Make this your part and be there on time to sing the old hymns we all love so well. Sermon theme for the evening will be on "The Good Confession." An invitation is extended to everybody to attend all or any of these services.

With us good printing is not a fad, pastime or an experiment—it's our business.—The Advocate, phone 36 for printing service.

LOCAL ITEMS

What has become of the yeast cake fad that raged a few years ago?

Mr. Joe Korczynski who is working in Okotoks was at his home in Vulcan over the week end.

Residents will please note that the new siren will be sounded each day at noon, and that the bell will be rung in the morning and evening as usual.

Miss Callender who has been visiting with her sister, Mrs. Munro, for the past three weeks, has returned to Calgary.

Born to Mr. and Mrs. George K. Reath of Vulcan at Mrs. E. Spier's private hospital, on April 2nd, a daughter.

At a council meeting on Monday it was decided to attach four red reflectors to the silent policeman in front of the Imperial hotel.

When a Western man tells a woman that she is looking "just like a four-year-old," she is never quite sure if it is a compliment. A four year old what?

Miss Thelma Dodds and Mr. Norman Hurst, both of Lethbridge, spent a few days in Vulcan last week visiting Mr. and Mrs. Fletcher and Miss Isabel Dodds.

Miss Kathleen Purdy was a Champion visitor last week for a few days. On her way back to Calgary, she attended the dance at the club where she met many old friends.

Mr. B. R. Lommatzsch has been elected to the committee of the Fox Breeders' Association of Alberta. About a year ago we had the pleasure of making reference to this important industry, and now wish to congratulate Mr. Lommatzsch on his appointment.

A very enjoyable whist party was given last week by the nurses in their residence. Ladies' first prize was awarded to Miss Isabel Flood and consolation to Miss Watt. Gent's first to Mr. Bud Flood and consolation to Mr. Harold Hemingway. At midnight a dainty lunch was served. After another pleasant hour or two, which was spent in playing games and dancing, the guests departed.

An article written some time ago informs us that 100 per cent. of Income Tax is paid by 1 per cent. of the citizens. 1600 Canadians each pay average of \$7800 per annum. Parliamentary documents tabled show that 98.8 per cent. of this country's citizens pay no income tax. The other 1.2 per cent. of the population pay 100 per cent. of the tax. Out of 122,026 income tax payers in a recent year, 1600 paid \$12,478,000 while 120,426 contributed only \$10,744,000.

TALKIES DRAW CROWDS TO VULCAN THEATRE

Enterprise, in connection with the installation of sound equipment at the Vulcan theatre, has had splendid recognition by the public and the reward of generous patronage on the occasion of the inauguration of the talkies. There was capacity attendance at the two shows a night on Thursday, Friday and Saturday and at the matinee on Saturday, and the production by film and record were a delightful and satisfying return to patrons. The opening event was a real success.

"The Coconut" was selected from a number of the better subjects as the first to run in the introduction of the newest entertainment at the local theatre, a house which has of late been improved and appointed to a high standard of excellence. The choice of picture was made with consideration given to the varied and many features which it carries, and to give demonstration of the class of entertainment that is to be maintained by the programs presented.

The costly and complicated mechanism was so installed that in operation it was generally satisfactory to a degree to prompt congratulations from public to theatre manager. Even the critic, who might have noted a few kinks, is constrained to tender praise. The ambition and determination of manager and operator is to attain to that point of excellence in presentation that has been established in the best of houses, and with the fine results attending the initial effort, the objective will rapidly be achieved. The practice that makes perfect will be followed and each succeeding presentation will show improvement.

Let the Advocate do your printing. Telephone 36.

BERRYWATER U.F.A. ENTERTAINS LADIES

(Too Late for Last Week)

The U.F.A. entertained members of the U.F.W.A., and the new members of each local (the result of a recent membership drive) at the school on March 24th. The play "Danny Boy" was splendidly acted by a group of young people from the Red Cross district. The highest praise is due to all talking part. Performance held the interest of the large audience right to the finish. Between the acts the program consisted of piano solo, Mrs. W. Campbell; recitations by Miss Gilhooley and Miss Campbell; song by Mr. N. Campbell, and hearty congratulations on arranging such an enjoyable program, and the serving of a delicious lunch was accorded to the U.F.A. on the motion of Mrs. McLean on behalf of the U.F.W.A. The singing of God Save the King brought to a close a very enjoyable evening.

A well attended meeting was held at the home of Mrs. F. Noble on March 26th, Mrs. N. Campbell presiding. During the business session, Mrs. L. Douglass gave a satisfactory report of the series of whist drives held at members' homes during the winter, and it was decided to discontinue the game for this season. On the resignation of Mrs. Mills as director, Mrs. Noble was elected to fill the vacancy. Mrs. R. Hubbard was elected as a member, of the social committee in place of Mrs. Blanchard who has left the district. The roll call was answered by Irish jokes Mrs. Campbell gave a splendid paper on baby chicks, followed by a discussion of members' experiences along that line. Mrs. F. Noble, convener of Co-operative Marketing, read the egg marketing bulletin sent out by Mrs. Scholfield, and led an interesting discussion on the egg pool, its methods and problems. Lunch was served by the hostess at the close of the meeting. The U.F.W.A. will meet at the home of Mrs. F. Messenger on April 9. Roll Call, "beautifying the home and surroundings."

Mrs. Buckley of Gleichen, presided over a well attended conference of members of the Buffalo Hill, Sunset Valley and Berrywater U.F.W.A., at the home of Mrs. M. Ward. After the singing of O Canada and community singing, accompanied by Mrs. MacDonald, Mrs. Ward welcomed the ladies; Mrs. Washburn and Mrs. N. Campbell replying on behalf of those present. Mrs. Buckley, in her address, stressed the need of keeping up the U.F.W.A. membership, urging the co-operation of all farm women in helping forward all that the U.F.A. movement stands for. A piano solo by Mrs. Washburn and a song by Mrs. Lewendon was much enjoyed by Mrs. Oldfield gave an interesting talk, expressing the hope that there may be more of these get-together meetings, and how helpful they were especially to recently organized locals. She also read the resolution on (Continued on the Back Page)

VULCAN UNITED CHURCH

Last Sunday morning the Sacrament of the Lord's Supper was dispensed to a large turnout of the members of this church, some 85 per cent of membership. A very pleasing and gratifying part of this service was, when fourteen young people were admitted into full membership of the church. Mr. Irvin, school principal, has been appointed superintendent of the Sunday school and took his place last Sunday for the first time. We are looking forward to the special services to be held during Passion Week, when each evening different ministers from surrounding district, will be the speakers for that week.

VIMY CELEBRATION WAS HUGE SUCCESS

The anniversary of the famous battle of Vimy Ridge was celebrated last evening by the Vulcan branch of the Canadian Legion, B.E.S.L., at the I.O.O.F. hall.

A banquet was the opening feature, and this was thoroughly enjoyed by large numbers of guests; several toasts were proposed and suitably responded to. Mrs. Sherman was responsible for the catering and deserves commendation for the excellence of both the meal and the service.

Prominent speakers, singers and dancers entertained the audience at the social which followed and, at eleven o'clock, dancing was commenced and continued until an early morning hour. Music for the dance was furnished by Tom Cope and family of Carseland. Tom is an "old time fiddler" and his wife and daughter play the piano and guitar respectively.

The committee in charge, Messrs. L. F. Dawson, E. Mellon, and Walter Mays, are to be congratulated on the success of the occasion.

UNITED CHURCH NOTES

The regular services will be held at the United Church next Sunday, April 13, morning and evening.

11 a.m., "Nothing for Breakfast." 7:30 p.m., "The Inequalities of the Human Lot." Sunday school and adult bible class at 12 noon. Berrywater at 2 and Red Cross at 3:30 p.m. The regular quarterly meeting of the official board will be held at the close of the evening service.

LOCAL ITEMS

On a cold morning—prove REGAL GASOLINE. Adv.

Rev. F. C. Hahn of The Full Gospel Conference, was a Vulcan visitor this week.

Mr. Charlie Brownbill spent a few days in Vulcan last week visiting friends.

Funny how the least interesting letters so often are written on the most elegant stationery.

Mr. Eugene Axtell of Didsbury, who has been the guest of Bob Munson for three weeks, has returned home.

The mayor and council wish to call special attention to the annual clean-up week, April 21 to 26, and ask all citizens to assist.

Mr. Colin McInnes and his sister, Miss McInnes, have taken up residence in the house recently occupied by Mr. and Mrs. W. H. Scott.

Vulcan Lodge, No. 121, B.P.O.E. will meet on Monday next in the I.O.O.F. hall at 8:30. All members and visitors please attend.

Mr. and Mrs. Wm. Ritchie spent the week end at Taber with Mr. and Mrs. Gordon Saunders and son, Bobbie, who, unfortunately has a broken leg.

K. R. McLean, of McLean & Anderson, Sight Marketing, 224 8th Avenue West, Calgary, visits the King Drug Store Saturday, April 19th. Make appointments Drug Store.

Trees owned by the town of Vulcan having been damaged to a considerable extent, the council has offered a reward of five dollars for information leading to the conviction of the offenders. Citizens please note.

Special Notice—Any reference to entertainments or other forms of amusement where an admission is being charged; or it is being staged for a profit, is advertising, and will be charged as such. Don't ask for free advertising.

Thursday, the citizens of Vulcan, were startled by the loud noise of the new siren, installed by the city fathers for use as a fire alarm. There is now no doubt that a call will be heard all over town, and the council is to be congratulated on the acquisition of this necessary appliance.

Following the meeting of Vulcan Athletic Association on March 18 the newly appointed executive: Messrs. Irvine, McInnes, Butchart, McAskile and Recor, have chosen their officers. P. McAskile is president, and the secretary is W. L. Irvine. The association will put on a sports day on May 24.

CHAIN LETTER FEAR

Of all the nuisances that annoy the business man through the mail the chain letter takes the palm. The motives of some may be commendable; we almost feel for one the other day ourselves because it referred to safety first and we are anxious to spread the gospel of safety on our roads. But why we, who realize said dangers, and spread tidings of them willingly should type out nine letters to friends, so as not to break the chain, we cannot conceive. Chain letter senders take notice, our wastebasket is wide and handy!

But there is a contemptible form of the nuisance that cannot be sufficiently exposed and that is the chain letter that attempts to play on a man's superstition. It begins by informing the recipient that "this was started in Flanders fields," that to break this chain means bad luck. Nothing could be more senseless; for there is no good in it at all, unless giving gratuitous postage to the government means good. The thing would have died a natural death long ago had it not been for the superstition of the few. A friend of our last week-end had insult added to injury when the chain letter, without address and signature, was sent minus postage and he had to pay four cents. Ignore every chain letter appeal, we counsel. Refuse to be browbeaten rise above a threat of ill luck, assert your right to determine sensibly for yourself and consign all such appeals to the basket, where they logically belong.—Exchange.

DUMPING OF EGGS

In Hansard we read addresses on the dumping of eggs in Canada and of the serious condition of the poultry industry as a result. About 250,000 Canadian are employed in this industry at present and statistics shows that in 1928 there were over 34,000,000 hens with a production of 269,000,000 dozen eggs valued at \$84,000,000. During January and February of this year there were dumped on the Canadian market, mainly from the U.S., 1,597,000 dozen eggs in the shell and 89,000 pounds of canned eggs, being more than double the importations for the whole year of 1929 and almost as much as the total importations in 1928 and 1929. The poultry industry is appealing to the government for relief. It seems like absolute folly for Canada to allow these eggs to be imported under a duty of three cents a dozen, when if we wanted to ship to the U. S. we have to pay eight cents a dozen. In other words the U. S. producer is at an advantage of five cents per dozen over the producer in Canada.

Ontario Hydro-Electric has absorbed another of the private ownership electric plants by purchasing the Dom. Power Co. plant at Decew Falls for \$21,000,000.

BAN ON LIQUOR EXPORT

A correspondent of the Lethbridge Herald, says "for the first time in history an Angle Saxon country has trimmed her laws to enable a neighbor republic better to cope with a domestic situation." He then adds that his neighborly gesture will cost Canada at least \$20,000,000 in lost excise duty alone. Meanwhile the gesture of goodwill on the part of Canada is met by the U. S. putting up a tariff wall against Canadian products. J. C. Shaffer, a republican representative stated in Congress that: "It will cost the Canadian government \$20,000,000 and American drinkers \$100,000,000 and it won't stop liquor coming across."

358 eggs in 365 days is the record of a hen at Saskatchewan University. Last year Canada purchased \$900,000,000 worth of goods from the U.S. to help build up industries there.

The American States are planning a genial cut in wheat acreage this year, notably in the durum wheat grades. According to statistics furnished fire costs Canada about \$100,000,000 annually. During 1928 about 32,000 fires occurred, half of which were preventable.

BRIGHTENING UP

The following little editorial paragraph from the Toronto Telegram, may help some: "Another bull market in New York is further evidence that Uncle Sam's cure for the ills caused by too much stock speculation is a hair of the dog that bit him. It is also an indication that, despite the cry of hard times, there is still a lot of loose money both in the U.S. and Canada. So much indeed that hope is expressed in some quarters that the expected business depression won't last long enough to give either country the blues. Moreover the wheat situation is brightening up a bit. Who knows but that when the month of March slips off the calendar the merry spring time that follows may bring joy to the business world as well as to the rest of the suffering humanity."

POOR WHEAT PAYS

The sale of frozen wheat at \$1.13 per bushel is a pretty attractive figure. Feeding tests made at the Lacombe, Alta., Experimental Station of the Department of Agriculture, shows that this can be done. Tests were made with four lots of hogs with varying rations of frozen wheat and frozen wheat fed with oat chop. A market value for frozen wheat ranging to \$1.61 per bushel was shown by the test where oats were fed with the frozen wheat. The value of grain fed in this way depends directly on the price of hogs. At current market prices frozen wheat can be marketed through hogs at a price equivalent to No. 3 Northern.

DOES GRADING PAY?

Canadian potatoes made a good start for 1930 by taking a premium in the Boston market over the State of Maine product. A report received by the Fruit Branch of the Dominion Department of Agriculture from the United States market report service shows that P.E.I. potatoes selling in 90 pound lots got a price from five to fifty cents more per unit than was paid for the same class of product from the State of Maine selling in a 100 pound bag. Every carload and cargo of potatoes shipped out of P.E.I. was government inspected and certified. Yes—grading does pay.

OUR SEASONABLE WORK

It is unfortunate that the very conditions which call for some Unemployment Insurance policy on the part of the Government, are the conditions which are creating difficulties. Seasonable employment is brought about largely by the climate and because climatic conditions are more or less unalterable, the whole proposition is difficult of solution.

Building construction, railway construction, farming, lumbering, mining, fishing, shipping all are more or less seasonal.

Naturally, the greater the risk, the more expensive insurance becomes, and a certain amount of unemployment is almost inevitable amongst many classes of workers. Others again, for example street workers, factory hands, etc., are twelve month people under ordinary conditions, and would not be anxious to shoulder the risks of other classes of labor.

The practise in Great Britain is to pool the contributions of the various trades. But in this country, it is doubtful if the scheme would be workable, because of the great diversity of unemployment risk in the many occupations.

Hon. Peter Heenan and all labor organizations, are studying the problem carefully. It is admitted that climatic conditions make it a much more complicated problem than in other countries where it has been developed successfully.

Minor stumbling blocks, such as encouraging men to "alack" can be discounted as the insurance would never be sufficiently attractive to lure men from normal wages.

But confronting labor, is the fact that too much unemployment exists, and a remedy must be found.

LIBERAL PLATFORM

The Liberals in convention in Calgary last week, passed a resolution strongly in favor of public ownership of power.

In regard to taxation, it was felt that succession duties in the case of small estates was unreasonably high, and that it should be reduced to the scale existing before the present government.

Another pledged the party to no further increase in public debt except for necessary public works; to a decrease in the cost of government administration; to reduction or abolition of the supplementary revenue tax; to a cut in motor license fees; to reduction of public debt.

It was advocated that a thorough audit be maintained over all organizations which secure advances of funds either directly or indirectly by provincial government guarantee.

The existing highway policy in Alberta was condemned as progressive and inadequate, and the convention favored ear-marking all gas tax monies and car license fees.

LEADER'S PORTRAIT

The women's organizations of Alberta are giving enthusiastic support to the portrait of Mrs. McKinney, which is to be painted and presented to the Legislative Building at Ottawa. All women's organizations of the province are contributing to the portrait. The artist is J. L. Forster of Toronto, well known portrait painter.

This honor has been conferred on Mrs. McKinney in recognition of the fact that she was the first woman in the British Empire to be elected to any Legislative Assembly, when she represented Clarendon in 1917.

She is a very versatile woman, having long been a leader not only in political life but in social reform and church work.

EVERY RUNNING PART
BATHED IN FRESH CLEAN
OIL.

A cream separator to
operate economically and
efficiently over a long
period of years must have
a system of lubrication
that is positive and ac-
curate under all operating
conditions.

The McCormick De-
ering ball bearing cream
separator is lubricated by
a splash force-feed oil
clarifying system. Every
running part receives a
bath of oil, yet there is

not an oil cup or oil hole
on the machine to clean
or fill.

The spindle driving
gear revolving in a metal
trough sprays the oil to
every bearing and moving
part. This feature—long
desired by cream separa-
tor users—reduces friction,
prevents wear, assures
long life, and provides a
quiet, smooth—running
machine.

Edith—"Haven't you
and Jack been engaged
long enough to get mar-
ried?"

Ethel—"Too long. He
hasn't a penny left."

The after-dinner speak-
er droned on and on: one
man nodded and present-
ly rested his head on the
table. The chairman lean-
ed over and tapped him
on the head with his
mallet.

The delinquent raised
his head a little.
"Hit me harder," he
said, "I can still hear
him."

ALBERTA FOR STOCK

We Have the Climate, the Soil and
Water to Produce the Best in Beef
and Mutton

Hearty encouragement to develop
the livestock industry is given in the
Lethbridge Herald. The writer says
that in Eastern Canada and United
States, cattle must be housed in
barns from November to May. A
great amount of labor and money is
involved in raising a three-year-old
down there. But out here where the
chink blows the cost of housing is
practically nothing and the hand
feeding in winter is light.

So here in this Southern Alberta,
livestock production should be consid-
ered most favorably, especially right
now when the wheat market is none
too cheerful.

We have doubled our volume of
wheat exports in the last ten years,
but are losing steadily in our export
of livestock products.

Although Canada does produce
more livestock, dairy and poultry
products than ten years ago, yet she
exports only one third the amount
than she did ten years ago.

The market is there, waiting for
Canadian produce, but we have
grown so used to think in terms of
wheat that we have let other oppor-
tunities lapse. Market difficulties
would vanish as the volume of live-
stock egg and dairy products would
rise to the point where we could sup-
ply foreign markets.

If we raise enough to supply both
home and export markets, we will
have a better average year round
market.

Here in Southern Alberta we have
the climate, the soil and the water;
we can grow healthy livestock; we
can produce feed cheaply; we can
build up a more permanent type of
agriculture. There should be no hesi-
tation about it, especially since the
wheat market is not what it used to
be, and is never likely to be again.

The minimum space for playing
field should be seven acres for 1000
people.

The grading rules for maple syrup
and maple sugar follows the color
line. Grade 1 is very light in color,
almost like clover honey. Grade 2
and 3 are perceptibly darker, while
grade 4 is more the color of buck-
wheat honey.

Alberta coal mines produced 7,
147,250 tons of coal, valued at \$22-
491,061 during the year 1929, accord-
ing to the annual report of A. A. Mil-
ler, chief inspector of mines for the
province. In addition to the coal
mined there were 77,197 tons of
shale mined from which 26,077,733
bricks were manufactured.

URGES COMMISSION

Highways Should be in Hands of In-
dependent Commission, Says
MacKay

A. B. MacKay, past president of
the Alberta Motor Association, urges
most vehemently, better methods of
dealing with the highway problems.
He says that out of the \$300,000,000
received by Canada from tourist
trade, Alberta got only \$1,000,000,
and this sum could not be greatly in-
creased without better roads. He
urges large sums spent on main high-
ways, rather than on secondary or
market roads, at the present time in
order to establish tourist trade.
Whether this expenditure would be
generally most popular, is a question
He also preases for an independent
highway commission outside of pol-
itics, to care for highways.

This commission should be given
control of the expenditure of sums
collected in motor licenses and gaso-
line tax, and a good share of the pro-
vincial liquor profits. If this were
done, he pointed out, a compre-
hensive programme of main highway
construction could be undertaken,
and the province would be in a po-
sition to profit from the great volume
of tourist traffic, which, at the pres-
ent time, passed Alberta by owing to
the condition of our roads.

LIKELY INSURANCE

The Unemployment Insurance Sug-
gested Quite Different from Dole

The principle of unemployment in-
surance, debated in the Dominion
House, differs entirely from the
"dole" system. The dole is poor re-
lief. The unemployment insurance
is merely insurance against out of
work hazard. There are rules govern-
ing this, as clear cut as on any
other policy. An unemployment pol-
icy to be realized upon, demands that
a certain weekly contribution be
paid (this to be shared between em-
ployer and employee), that payments
be maintained for a certain definite
period and that the holder be genu-
inely seeking work.

Like other insurance, the payment
made are based on the amount of the
weekly premiums, and the amount of
unemployment occurring in any in-
dustry. If an industry were liable to
seasonal, part time activity, the em-
ployer and employee would naturally
pay a higher premium, as the risks
would be greater.
It is a self-respecting safeguard
and represents outside assistance on-
ly in the sense that the state and the
employer would share with the work-
er in the cost of insuring against oc-
casional unemployment.

COW TESTING

Increases Milk Production is the
Opinion of a Prominent Dairyman

The season is here when our dairy-
men are planning their season's work.
An important phase of their work
should not be overlooked—cow test-
ing—in other words, weighing the
milk of each cow periodically, and
taking samples to ascertain the but-
terfat content. Milk production is
largely calculated by butter fat con-
tent. Speaking on the subject, an
expert in dairying has this to say:

One Cow or Seven?

"Who would care to milk, feed and
stable seven cows when a single cow
would make as much profit? It
would seem that no one would, yet
many are doing this very thing, as
shown by an analysis of more than
100,000 cow testing association re-
cords made by the Bureau of Dairy-
ing at Washington."

"The records show: cows that pro-
duced 100 lbs. of butter fat a year,
returned \$14 each, over feed cost;
cows that produced 200 lbs. of butter
fat a year returned \$54, each year,
over feed cost; cows that produced
400 lbs. of butter fat a year returned
\$138 each, over feed cost; cows that
produced 500 lbs. of butter fat a
year returned \$178 each over feed
cost."

Similar record tests in Canada
have proved conclusively that the
cow that gives 300 and more lbs. of
butter fat in the year will make a
profit over feed, taking dairy prod-
ucts at fair prices.

Cost figures kept on many thou-
sands of cows in cow testing associa-
tions prove that the more butter fat
a cow gives, the more profitable she
is. The use of a small scale to
weigh the milk and a convenient
milk sheet for recording the weights
will help to pick out the profitable
cows and to decide which heifer
calves should be kept. The aim of
every dairyman should be to raise
and keep cows which will give 300
pounds of butter fat per year or over.

NUMBER PLEASE

Canada's telephone conversations
are all written down in a book, and
the average conversations per phone
per year are 1717 local and 27 long
distance. That means an average of
about three calls a day on each
phone. How about it? Are we
slackers or do we bring up the av-
erage in our daily talk?

British Columbia has an average
of 20.8 phones per 100 people. On-
tario has 18 'phones for every 100.
Alberta 12 phones per 100 people.

The countries which approach Cana-
da in general use of telephone are
U.S., New Zealand, Denmark, Swed-
en and Norway.

HYDRO FOR FARMERS

The decision of the Ontario govern-
ment to set aside \$2,000,000 to be
expended by the Hydro Electric Com-
mission as loans to farmers to aid
them in installing electric wiring on
their farms fulfills another pledge
made by the administration prior to
the last election. This is a move in
the right direction. Anything that
will assist the farmers to get the
benefits of Hydro power is all to the
good. In the past, it has been prac-
tically prohibitive. There is no
"plant" that requires the benefits of
electricity more than the farm. It is
coming. The interest shown by the
farmers of Normanby township re-
cently is an evidence of the fact.—
Hanover Post.

SPLIT IN C P R STOCK

Four for One Split in Common
Shares of C.P.R. Approved

The four for one split in common
shares of the C.P.R. was approved in
the House at Ottawa recently. There
was no division. President Beatty
gave a brief history of the company
in respect to the issuing and holding
of securities. Ordinary stock of the
C.P.R., President Beatty said, had in-
creased from \$25,000,000 in 1883, to
\$65,000,000 in 1885, \$150,000,000 in
1903, \$260,000,000 in 1912, and was
now \$335,000,000. Preferred stock
now amounted to 24,078,000 pounds
sterling.

Assets of the company, President
Beatty stated, had increased greatly
and now tallied \$1,300,000,000, and
he was very pleased to state that
more than 97 per cent. of this
amount was in Canada.

Speaking of the common stock of
the company, President Beatty said
18.07 per cent. was held in Canada,
42.09 per cent. in England, 32.06 per
cent. in the United States, with the
small balance elsewhere. The com-
pany had avoided making any split,
President Beatty continued, at a
time when conditions might be con-
sidered "ultra-speculative," and had
waited for the occasion when con-
ditions were "normal if not really sub-
normal." He mentioned the fact that
the Canadian Pacific was a Canadian
company, with headquarters in Cana-
da, and thought the reducing of the
par value of shares from \$100 to \$25
would make them available for the
Canadian people.

TO HELP CHINA

Move on Part of Farmer Group in
Saskatchewan to Send Food to
China

It has remained for the farmers
of a little district in Saskatchewan to
China, which must rouse the admi-
ration of all. The farmers of the little
district of Demaille are launching a
make a humanitarian move toward
plan for every farmer to donate a
bushel of wheat toward feeding the
starving people of northern China,
at the same time asking the railway
and steamship corporations to ar-
range free transportation of the food.
It is their hope that the move will
gather strength and become western
wide in its appeal.

With wheat a very doubtful asset
in the hands of the farmers, at the
present time, the donation of one
bushel from each farmer would be no
heavy individual toll, and would re-
lieve many from death by starvation.

It may be argued that there are
hungry people nearer home than
China, which is no doubt true. But
the impulse on this little group of
Saskatchewan farmers is fine in spir-
it, and seems to reach more nearly a
true missionary zeal, than many less
practical but more popular methods
of bringing help to the heathen.

New Zealand with an area of 108,
000 square miles has a population
about the size of Glasgow.

The new lady Senator at Ottawa,
is said to have an income of \$100,000
in her own right.
A new film exchange office will be
built in Calgary for the use of all
film companies having branch offices
in the city. The building will cost
about \$100,000.

The Danish government has abol-
ished capital punishment by a vote of
more than 2 to 1. It is 30 years
since a death sentence was carried
out.

FEWER OFFICIALS

While retrenchment is the aim of individuals throughout the province, there is no evidence of a similar impulse actuating the government. During the last ten years, in common with individuals, our government has developed a tremendous capacity for spending money. But unlike the average individual, it is now showing no indication to call a halt.

Elected on an economy cry, the present government has increased its spending capacity from \$900,000 to \$1,500,000 a month. In 1918 Alberta spent \$8,303,000. In 1920 we had reached \$10,000,000. But in 1930 the budget has climbed to \$17,107,000.

Although this year, no new forms of taxation have been added, almost all avenues are now exhausted, with little disposition to lighten the burden or reduce the overhead.

This is not a criticism applicable to our provincial government alone. All governments appear to be overloaded with officials of varying degree of merit. Inspectors, supervisors, civil servants to no end. Whether or not the maximum of service is exacted from these government agents, is hard to say. But at least it would be interesting to know just how great a proportion of our population they form.

There are only 650,000 of us in all Alberta—just the population of the larger Eastern cities. Yet, what a tremendous organization it takes to legislate for these 650,000. We appear to be top heavy with officials, while after all, the policy of the province, is dictated and carried out by half a dozen leaders.

The time may come when the country will waken to a realization of money wasted both provincially and in the federal house, by the surplus of representatives and officials. A few men of outstanding business ability, with a salary commensurate with their efforts, might prove less costly in the long run in administering the affairs of our people, than the loose unwieldy machinery, with its infinity of parts, which exists at present.

BERRYWATER U.F.A.

(Continued from Front Page)

Health Unit passed by the convention and now being considered in parliament. Mrs. Williams entertained the meeting with a monologue "Aunt Cordelia's call on the doctor's wife," which was heartily applauded. Mr. Cook of the Department of Health then addressed the meeting on various phases of health culture, especially urging the great need of better sanitation on the farms and at the schools, remarking that the women could do much towards this end, following his address, Mr. Cook showed some lantern slides on the origin of plant, insect and animal life, at the close of which, he was given a hearty vote of thanks. An enjoyable and interesting afternoon was closed by the singing of God Save the King. The Buffalo Hill ladies served the visitors a very delicious lunch, another enjoyable item of a pleasant afternoon's program.

VULCAN, ALBERTA

TIPS ON TEETH

The foundation for strong teeth is laid in the period before a child's birth, and in the first seven years of childhood. In the pre natal period the mother's diet must include the foods that supply the teeth building materials. These foods include milk, loss of it; leafy vegetables, fresh fruit if possible, butter, eggs, whole wheat bread, whole grain cereals.

The same materials are required to keep teeth sound, as are required to build sound teeth.

These are primarily foods strong in mineral salts, which build and maintain the enamel of the teeth. Most important of these are vegetables, fresh fruit, nuts, coarse breads, milk, dairy products.

Teeth must have exercise in order to keep fit. Chew, chew, chew.

Sweets render the teeth more liable to decay, by making the mouth difficult to cleanse. The fermentation of the sugar sets up decay.

Unless the teeth are brushed frequently, food is bound to lodge somewhere. The brush should not be used crosswise, but should be passed from the gum down, or up over the teeth. A small brush should be selected.

Care of teeth cannot commence too early. If the baby teeth are not well watched for cavities and health, the second teeth will not have had a fair chance. In general health the first teeth have a vital influence on the growth and development of the child's body and mind.

Of all laws of health, those broken most easily are those pertaining to teeth.

Prevention is infinitely easier than cure, and in preventing decaying teeth, one is preventing a fruitful source of ill health.

No matter how clever or ambitious a child may be, he cannot reach the top without good health, and good teeth are one of the basic conditions of good health.

Happiness and success are the result of right thinking and right living.

All outstanding athletes and champions have sound teeth.

The Anglo Saxon race has 97 per cent. of its adults suffering from teeth decay. On the other hand Maoris, Eskimos, primitive peoples, Southern Europeans have almost perfect teeth. It is a matter of emphasizing the foods rich in mineral salts instead of the over-refined foods popular to Anglo Saxons. The enamel of the teeth of all babies has been formed before birth.

The greatest damage to teeth is accomplished through neglect in pre-school age.

Well cared for first teeth, pave the way to strong permanent teeth. Teeth should be examined twice a year, throughout their life.

WISE SPENDING

The Individual by Thoughtful spending May Do Much to Stimulate Trade

The Bank of Nova Scotia issues in its monthly statement some wise advice showing the part that the individual may play in stimulating trade and employment.

"A slightly greater tendency to spend in a particular direction," it is pointed out, "may provide the means of livelihood for numbers of unemployed workers. A slight curtailment of expenditure in a particular direction may result in numerous discharges. Though the private individual, as he spends his income, seldom pauses to reflect on the matter, the character of his spending is helping to determine, often at quite remote distances, who shall and who shall not be employed."

If each individual Canadian will set his shoulder to the wheel—wisely spend, wisely plan and work—the patch now dimming the sun of our prosperity will be the more rapidly dispelled.

Owing to drought conditions last year on the prairie, many of the sloughs frequented by water fowl are this year dried up.

New York has 1,750,000 Jews. Indians on the prairie reservations sold \$250,000 worth of cattle last year.

New settlers are filling up the country west of Snipe Lake, 175 miles northwest of Edmonton. The country between Snipe and Sturgeon Lake is being taken up fast.

FARM FOR SALE

N.W. 1/4 10-17-24-W.4th, Alberta TENDERS marked 30609 addressed to L.F. Clarry, Esq., K.C. Master in Chambers, Court House, Calgary, will be received up to 11 o'clock in the forenoon of Saturday the 26th day of April A.D. 1930 for the purchase of the above property.

Location—3 miles from Vulcan. Soil: Chocolate loam on clay sub-soil.

Buildings—House 18x21; 2 stories; addition 16x21; 2 stables each 16x24; granary 16x18; poultry house 12x18; 130 acres under cultivation, 30 acres summerfallow, 2 miles fencing; good well and windmill.

Terms of Sale: 5 per cent. with tender, 20 per cent. on acceptance of tender, 25 per cent. in six months, 25 per cent. in twelve months and the balance in 2 years from the date of acceptance of tender, such payments to bear interest at 8 per cent. per annum or all cash at option of purchaser.

In all other respects the standing conditions of sale will apply.

Tenders must be accompanied by marked cheque for 5 per cent. of the offer which will be returned in the event of non-acceptance. No tender necessarily accepted.

For further particulars apply to Ballachey, Burnet, Spankie & Heseltine, Solicitors, High River, Alberta. DATED at Calgary, Alberta, this 5th day of April A.D., 1930.

APPROVED: (Sgd.) L. F. Clarry M.C. (Sgd.) C. H. Smith Clerk in Chambers

Ap1. 10-2-c

NOTICE TO CREDITORS AND CLAIMANTS

IN THE ESTATE OF MORRIS STAGER, late of Vulcan, Alberta, Farmer, Deceased.

NOTICE IS HEREBY GIVEN that all persons having claims upon the estate of Morris Stager, Deceased, who died on the 15th day of January 1930, are required to send to the undersigned Executrix of his will by the First day of June, 1930, a full statement, duly verified, of their claims and any securities held by them, and that after that date the Executrix will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed, or brought to her knowledge.

DATED this 31st day of March, A.D. 1930.

L. H. STACK Solicitor for ALICE STAGER The Executrix. Ap1. 3-3t-c

An Eastern editor says that when he sees rural mail carriers starting out on their trips on a cold or rainy day to distribute mail, he feels like supporting a move for adequate remuneration to them. Their pay is far too small. The government should stop the tendering system and fix a fair price for the job.
